THE HOSTING

Virtual server activation

Dear Orxan Əli!

This is to inform you a virtual server was set up by your request. You may print this letter for future use.

Server information

- **Service package:** Aluminium[UK]
- **Setup date:** 2025-07-02
- **Domain name:** bot.travelesimaz.com
- **Server IP address:** 95.164.37.75
- **User:** root
- **Password:** bSOd2UCG5Ymu

You must change the server password after the first login to the server. Check our instruction.

VMmanager 6 - external panel for server management

The external panel for server management can be used to reboot your server, reinstall operating system, view statistics on server load and traffic consumption.

- **URL:** https://karen.the.hosting
- **User:** chemistr.orxan98@gmail.com
- **Password:** T3XPTgXE58vp

You can click the "Open" icon in the "Virtual servers" module in your Member area for switching to the external panel for server management. You will be authorized automatically.

We hope you will enjoy your virtual server!
